EDUCATION

JNTUH College of Engineering Hyderabad

B.Tech in Computer Science & Engineering

CGPA: 8.6

2023 – 2027

Tagore Junior College

Intermediate (MPC)

89.3%

2021 – 2023

PROJECTS

TalkBoard - Collaborative Coding & Video Interview Platform | *React.js, Express.js, Socket.IO, WebRTC*

- Engineered a full-stack collaborative coding platform supporting real-time code synchronization and peer-to-peer video communication for technical interview simulations.
- Implemented low-latency collaborative editing using Socket.IO and operational room-based event broadcasting.
- Built WebRTC signaling infrastructure to establish direct audio/video connections between participants with STUN-based NAT traversal.
- Implemented secure OTP-based email authentication with JWT authorization and protected routes.
- Integrated Monaco Editor for a VS Code-like coding experience.

[Demo](#) | [GitHub](#)

MeoChat - Real-Time One-to-One Chat Application | *Mongo DB, Express.js, React.js, Node.js, Socket.IO*

- Designed and developed a real-time one-to-one chat application using the MERN stack and Socket.IO for low-latency, bi-directional communication.
- Implemented secure email-based OTP authentication for verified user sign-up and login.
- Developed a responsive React.js UI with live state synchronization across connected clients.
- Engineered scalable backend APIs using Node.js, Express.js, and MongoDB.

[Demo](#) | [GitHub](#)

CrimeTracker - Crime Reporting & Case Management System | *Python, Django, Tailwind CSS, MySQL*

- Developed a web-based crime reporting platform enabling citizens to submit and track complaints online.
- Implemented role-based access control for Citizens and Police Officers using Django Authentication.
- Integrated location tagging for accurate incident reporting and case tracking.
- Built case management workflows for status updates and investigation tracking.

TECHNICAL SKILLS

Languages: Java, Python, C, SQL, JavaScript

Frontend: React.js, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, Django

Database: MongoDB, MySQL

Developer Tools: Git, GitHub, Postman API

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

CERTIFICATIONS

Meta React Basics Certification — Coursera

2024

Meta JavaScript Certification — Coursera

2024

HackerRank Problem Solving Certification — HackerRank

2025

EXTRACURRICULAR ACTIVITIES

Coding Club Coordinator – JNTUH |

Aug 2025 – Present

- Organized coding contests, hackathons, and workshops to promote programming culture among students.
- Coordinated with faculty and peers to conduct technical events, coding sessions, and mentorship programs.
- Guided club members in competitive programming, problem-solving, and project development.

ACHIEVEMENTS

- Solved 800+ Data Structures & Algorithms problems across LeetCode & GeeksforGeeks [-LeetCode Profile](#)
- Ranked in the Top 6% of participants in LeetCode Weekly Contests
